Profile

Enthusiastic Computer Science student with strong foundations in Python, Java, HTML, CSS, and MySQL. Completed Level 1 Web Technology internship (Codsof) and experienced with Flask, Tkinter, and GitHub. Passionate about web development, problem-solving, and collaborative projects, seeking opportunities to apply technical skills in real-world scenarios.

Projects:

1. Student Management System – Developed a Python & Tkinter-based desktop application to manage student records, including add, update, and delete functionality.
2. Personal Portfolio Website – Created a responsive website using HTML, CSS, and Flask to showcase skills, projects, and resume.
3. To-Do Web App – Built a basic web application using Python, Flask, and MySQL to add, update, and delete tasks, implementing backend CRUD operations.
4. Mini E-Commerce Site – Designed a small web store interface using HTML, CSS, and Flask with product listing and basic cart functionality.

Certifications / Training

- Web Technology – Level 1 (Codsof Internship)
- Python Programming – Online Course (Coursera)
- Git & GitHub Basics – Online Workshop
- Web Development & UI/UX Design
- Problem Solving & Competitive Programming
- Blogging about Technology

Soft Skills

- Teamwork & Collaboration
- Communication & Presentation
- Time Management & Adaptability
